Trimble Survey “Clean and Calibrate” Special

It's that time of the year when projects should be (depending on the economy) starting to ramp up! Get your instrument in for a calibration/inspection before the season begins.

S6 Total Station Basic Service: \$250

Includes: inspect exterior/interior components, calibrate EDM, collimate HA/VA & Autolock, clean exterior & check firmware version.

5600 Total Station Basic Service: \$250

Includes: inspect exterior/interior components, calibrate EDM, collimate HA/VA & Autolock, clean exterior, check internal battery status & firmware version.

GPS Receiver Basic Service: \$125

Includes: inspect exterior/interior components, check connection ports, battery tray & data storage card slot, check firmware version and error log.

Offer valid through June 30, 2009. Please call 425.452.2700 or 800.523.6408 for more information or to schedule your service visit.
